Conrad Veidt, a native of Berlin, began acting in small parts as an extra until called into service during World War I. After his discharge he began a theater career that subsequently led to films and more than one turn as a director. This work thoroughly details Veidt's film career. It lists all movies that he was involved in and provides a synopsis, cast

and crew, and reviews of each film.

There are many photographs, a list of films that he is thought possibly to have been involved in, and an extensive bibliography.

This book examines the representation of women in the Orlando furioso and the making of a poem that both curses and blesses them.

Orlando Innamorato Di Bojardo,

Orlando Furioso Di Ariosto McFarland

From the grindhouse oddities to major studio releases, this work details 46 horror films released during the genre's golden era. Each entry includes cast and

credits, a plot synopsis, in-depth critical analysis, contemporary reviews, time of release, brief biographies of the principal cast and crew, and a production history. Apart from the 46 main entries, 71 additional “borderline horrors” are examined and critiqued in an appendix. *Papers and Proceedings* McFarland This two-volume set offers comprehensive coverage of horror literature that spans its deep history, dominant themes, significant works, and major authors, such as Stephen King, Edgar Allan Poe, and Anne Rice, as well as lesser-known horror writers. Many of today's horror story fans—who appreciate horror through movies, television, video games, graphic novels, and other forms—probably don't realize that horror literature is not only one of

the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. Horror Literature through History shows 21st-century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage

that is current and compelling to modern readers—who are of course also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and intellectual currents of their respective eras, creating a seamless narrative of the genre's evolution from ancient times to the present. The second section demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror—such as ghosts, vampires, religion, and gender roles—have been handled across time. The set also provides alphabetically arranged reference entries on authors,

works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections.

"The last great work of the age of reason, the final instance when all human knowledge could be presented with a single point of view ... Unabashed optimism, and unabashed racism, pervades many entries in the 11th, and provide its defining characteristics ... Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes. It is especially strong in its biographical entries. These delve deeply into the history of men and women prominent in

their eras who have since been largely forgotten - except by the historians, scholars"-- The Guardian, <https://www.theguardian.com/books/booblog/2012/apr/10/encyclopedia-britannica-11th-edition>.
