The Civil War and early Soviet food policies left

millions of children homeless and starving in Russia in the first half of the 20th century. Child mortality rates reached 95% in certain areas, and all of these problems remained endemic throughout the 1920s and 1930s. In The Dark Side of Early Soviet Childhood, 1917-1941, Boris B.

Gorshkov investigates the causes of this prolonged homelessness and starvation, the conditions faced by huge numbers of children, and the state's unsuccessful efforts to solve these horrendous issues. Gorshkov pays particular attention to the critical role of the secret police (the VChKa and the NKVD) in this story and draws on a range of previously unused archival sources to reveal the full extent of the suffering of children in Russia at this time, as well as the interconnected

causes behind it.

 "Killing yourself at any

age is a seriously tricky business. But when I was seven, the odds felt insurmountable." As a young girl, Terri Cheney's life looked perfect. Her family lived in a lovely house in a tranquil Los Angeles suburb where the geraniums never once failed to bloom. She was pretty and smart, an academic superstar and popular cheerleader whose father doted on her. But starting with her first suicide attempt at age seven, it was clear that her inner world was anything but perfect.

"There's something wrong with her," her mother would whisper, her voice quivering on the edge of despair. And indeed there was, although no one had a name for it yet. Hostage to her roller-coaster moods, Terri veered from easy A-pluses to total paralysis, from bouts of obsessive hypersexuality to episodes of alcoholic abandon that nearly cost her her life. Throughout Terri's chaotic early years, nothing was certain from day to day except this: whatever was so deeply wrong with her must be

kept a secret. Thirty years later, Terri wrote *Manic*, a harrowing memoir that revealed her adult struggle with bipolar disorder. It became an instant New York Times bestseller and received passionate critical acclaim. But it didn't tell the whole story. The mystery of Terri's childhood remained untouched—too troubling, too painful to fathom. *The Dark Side of Innocence* explores those tumultuous formative years, finally shattering Terri's well-guarded

secret. With vivid intensity, it blends a pitch-perfect childlike voice with keen adult observation. *The Dark Side of Innocence* provides a heart-rending, groundbreaking insider's look into the fascinating and frightening world of childhood bipolar disorder, an illness that affects a staggering one million children. This poignant and compelling story of Terri's journey from disaster and despair to hope and survival will serve as an informative and eye-opening tale for

those who would trust a flawless facade.

Disability in Antiquity is the first multidisciplinary volume to truly map out and

explore the topic of disability in the ancient world and create new avenues of thought and research.

MAD About the Trump Era Author House

This series of articles portrays the state of the art on family violence and abuse research, crystallizes the key interdisciplinary issues confronting family violence and abuse researchers, and suggests a research agenda for the coming years. Although the chapters cover a broad spectrum of issues

and controversies in the areas of wife abuse, child abuse, the sexual abuse of children, and marital rape, a number of common themes and issues emerge. First, many chapters share the perspective that violence and abuse emerge from the nature of social arrangements. Second, even though many different forms of family violence and abuse are discussed, several chapters explore their commonalities and important etiological differences. A number of

articles examine the common effects of victimization across various forms of family violence and abuse. A third common theme of the papers is an expansion of research efforts to groups other than victims of family violence and abuse, as there are chapters that examine the individual and social characteristics of male perpetrators of both wife abuse and child abuse as well as chapters that focus on the attitudes and behaviors of professional groups

concerned with the treatment of victims of family violence and abuse. The volume shows great methodological diversity and attention to theoretical detail; the research presented reveals the possibility of a more comprehensive social science approach to the study of family violence and abuse. In work related to theory building, one chapter explains a number of findings in the child abuse and neglect literature using propositions derived from evolutionary biology;

another paper distills propositions from several theoretical traditions. In conjunction with these efforts, several chapters report research designed to test competing propositions. Chapter references and research data are provided.

From the daughter of the iconoclastic comedic performer, Kelly Carlin's memoir *A Carlin Home Companion: Growing Up with George* "is written in the DNA of a Carlin, honest, biting, savage, funny, sad, dark, and profound...Hold on; like George Carlin, this book gives you a hell of a ride" (New York Times bestselling author and multi-award-winning comedian Lewis Black). Truly the voice of a generation, George Carlin

gave the world some of the most hysterical and iconic comedy routines of the last fifty years. From the "Seven Dirty Words" and "A Place for My Stuff", to "Religion is Bullshit" and "The American Dream", he perfected the art of making audiences double over with laughter while simultaneously making people wake up to the realities (and insanities) of life in the twentieth century. Few people glimpsed the inner life of this beloved comedian, but his only child, Kelly, was there to

see it all. Born at the very beginning of his decades-long career in comedy, she slid around the "old Dodge Dart," as he and wife Brenda drove around the country to "hell gigs." She witnessed his transformation in the '70s, as he fought back against—and talked back to—the establishment; she even talked him down from a really bad acid trip a time or two ("Kelly, the sun has exploded and we have eight, no-seven and a half minutes to live!"). Kelly not only watched her father constantly reinvent

himself and his comedy, but also had a front row seat to the roller coaster turmoil of her family's inner life—alcoholism, cocaine addiction, life-threatening health scares, and a crushing debt to the IRS. But having been the only “adult” in her family prepared her little for the task of her own adulthood. All the while, Kelly sought to define her own voice as she separated from the shadow of her father's genius. With rich humor and deep insight, Kelly Carlin pulls back the

curtain on what it was like to grow up as the daughter of one of the most recognizable comedians of our time, and become a woman in her own right. This vivid, hilarious, heartbreaking story is at once singular and universal—it is a contemplation of what it takes to move beyond the legacy of childhood, and forge a life of your own. Still the Darker Side of Childhood Springer Science & Business Media
This volume examines conceptions, ideas and habits connected with children in Antiquity and

the Middle Ages, focusing on the "dark sides of childhood" in the pre-modern world. The authors investigate the long-term attitudes of people, as well as ruptures in habits and customs. The book is divided into three parts. "Unwanted" deals with parents who were unable to bring up their baby and handed it over to other people or the cruel whims of destiny. "Disabled" addresses what we would label as children's illnesses since disability was a concept largely

unknown to ancient people. "Nearly Lost" examines demons, viewed as destructive forces with the ability to destroy children or young people, sometimes by literally sucking their lives away. The articles are written by an international team of specialists from Belgium, Finland, Italy and the United States and were presented at conferences organised by the research project "Religion and Childhood. Socialisation from the Roman Empire to Christian World", funded by the Academy of

Finland (2009-2012,
directed by Dr. Katariina

Mustakallio), at the

University of Tampere,
Finland.
