CASSIUS COCHRAN

Advanced Financial Accounting Hong Kong John Wiley & Sons

A companion volume to 'Financial Reporting and Analysis' by John Dunn, this text complements the existing book and offers practical coverage of key issues.

Ebook: Advanced Accounting John Wiley & Sons

This text is illustrated with presentations of worksheets, schedules & financial statements so that students can see the development of each new topic. Two international chapters include a comprehensive discussion of accounting for foreign currency derivatives & other derivatives such as interest swaps.

Advanced Introduction to Behavioral Finance Edward Elgar Publishing

While there is growing interest in IFRS within the US, interest outside the US has exploded.

Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP

rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

Advanced Financial Accounting McGraw Hill

This book constitutes the refereed proceedings of the International Conference on ICT in Teaching and Learning, ICT 2012, held in Hong Kong, China, in July 2012. The 19 revised full papers presented were carefully reviewed and selected from numerous submissions. They explore the use of information technology to improve learning and teaching and showcase innovative pedagogical practices. The papers are organized in topical sections on the construct of student engagement and the applications of ICT; emerging pedagogies through ICT; applications of ICT in teaching and learning; research/case studies on ICT in engaged learning; and finally three papers on open

textbooks, which address the current problems with conventional textbooks in Hong Kong.

Advanced Accounting Financial Times/Prentice Hall

2013 International Conference on Advanced Education Technology and Management Science(AETMS2013) aims to provide a forum for accessing to the most up-to-date and authoritative knowledge from both Education Technology and Management Science. AETMS2013 features unique mixed topics of Education technology, Teaching theory, psychology, Sport Pedagogy, Management science and engineering, Finance and economics and so on. The goal of this conference is to bring researchers, engineers, and students to the areas of Education Technology and Management Science to share experiences and original research contributions on those topics.

Advanced Financial Accounting John Wiley & Sons

This is an introductory level text for students undertaking accounting or business studies that offers a foundation to financial accounting. An interactive approach has been adopted to integrate the theory with practical situations.

Consolidated Financial Statements DEStech Publications, Inc

An adaptation of McGraw-Hill Australia's financial accounting text Australian Financial Accounting by Craig Deegan, authored by Anne Marie Ward of Ulster University. It communicates the detail necessary to understand, challenge and critically evaluate financial reporting.

Modern Financial Accounting The Chinese University of Hong Kong Press

Advanced Accounting delivers an in-depth, comprehensive introduction to advanced accounting theory and application, using actual business examples and relevant news stories to demonstrate how core principles translate into real-world business scenarios. Clearly defined and logically organized Learning Objectives aid in student comprehension, while highlighted Related Concepts illustrate how individual concepts fit into the larger picture. Short answer questions throughout the chapter allow students to test their knowledge before reaching the more in-depth end-of-chapter questions, promoting a deeper understanding of both technical and conceptual aspects of the field. Written by active accounting researchers, this text brings clarity and flexibility to the central ideas underlying business combinations, consolidated financial statements, foreign currency transactions, partnerships, non-profit accounting and more. This new Seventh Edition has been updated to reflect the latest changes to FASB and GASB standards, allowing students to build a skill set based on up-to-date practices. With a student-oriented pedagogy designed to enhance comprehension, promote engagement, and build real-world understanding, this user-friendly book provides an essential foundation in current advanced accounting methods and standards.

Financial Reporting, 3rd Edition Financial Times/Prentice Hall

Today's enterprises are global in all respects - they trade globally and they raise capital in international markets. This title places an emphasis on interpretation, use and impact of standards in financial reporting.

Advanced Financial Accounting Prentice Hall

Through detailed discussion of the central principles of behavioral finance, this enlightening Advanced Introduction provides a balanced exploration of the broad issues within the field. Chapters explain the continuous development of the discipline and provide a useful differentiation between behavioral finance and standard finance.

Advanced Financial Reporting and Analysis John Wiley & Sons

The approach used by Hoyle, Schaefer, and Douppnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has

made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

Advanced Financial Accounting Prentice Hall

The third edition of Loftus' Financial Reporting has been updated for recent developments in the Australian Accounting Standards, including the release of the new Conceptual Framework. This text is designed to be used across the 2nd and 3rd year financial accounting units. A hallmark feature of the text is that it provides both a conceptual understanding and a practical application of the accounting standards. For students, an understanding of the conceptual basis of accounting and the rationale behind the principles is crucial to the consistent application of standards in a variety of practical contexts. The Financial Reporting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes practitioner videos (from Ernst & Young), interactive worked problems and questions with immediate feedback. Loftus' unique resource can also form the basis of a blended learning solution for lecturers.

EBOOK: Financial Accounting and Reporting: An International Approach John Wiley & Sons

Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong balance of theoretical and conceptual coverage. Students using this book will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods.

Advanced Accounting McGraw-Hill Higher Education

1. Branch Accounting, 2. Departmental Accounting, 3. Consignment Accounting, 4. Joint Venture Accounting, 5. Depreciation, 6. Insolvency Accounting, 7. Accounting From Incomplete Records.

Advanced Financial Management Springer

This text offers information on book-keeping and accounting. Volume two has been adapted to conform to Hong Kong standards. Chapters on investment accounts, asset valuation and distributable profit have been incorporated, taxation in company accounts has been rewritten, and SSAPs are covered.

Advanced Accounting CCH Hong Kong Limited

This rigorous textbook introduces graduate students to the principles of econometrics and statistics with a focus on methods and applications in financial research. Financial Econometrics, Mathematics, and Statistics introduces tools and methods important for both finance and accounting that assist with asset pricing, corporate finance, options and futures, and conducting financial accounting research. Divided into four parts, the text begins with topics related to regression and financial econometrics. Subsequent sections describe time-series analyses; the role of binomial, multi-nomial, and log normal distributions in option pricing models; and the application

of statistics analyses to risk management. The real-world applications and problems offer students a unique insight into such topics as heteroskedasticity, regression, simultaneous equation models, panel data analysis, time series analysis, and generalized method of moments. Written by leading academics in the quantitative finance field, allows readers to implement the principles behind financial econometrics and statistics through real-world applications and problem sets. This textbook will appeal to a less-served market of upper-undergraduate and graduate students in finance, economics, and statistics.

Advanced Financial Accounting in Hong Kong McGraw Hill

The most authoritative financial reporting text for second and third-year courses, Loftus' Financial Reporting is back in a new fourth edition with updates to the Australian Accounting Standards (up to May 2022), making it the most current book on the market. New to this edition is an entire chapter on ethics, a completely reworked sustainability chapter and an expanded integration of New Zealand standards and examples. The new edition encourages students to not only develop a conceptual understanding of the content, but to also apply it in a variety of practical contexts. Supported by a variety of digital resources like interactive worked problems and questions with immediate feedback, Financial Reporting is a textbook designed for an engaging, interactive learning experience.

Financial Reporting, 4th Edition Springer

Financial Accounting and Reporting: An International Approach is an adaptation of McGraw-Hill Australia's bestselling financial accounting text Australian Financial Accounting by Craig Deegan, authored by Anne Marie Ward of Ulster University. Set within an international context, with a solid grounding in IAS/ IFRS, the book provides students with a detailed grasp of reporting requirements in an accessible and engaging manner. Up to date throughout and complete in theoretical and practical coverage, the book successfully communicates the detail necessary to understand, challenge and critically evaluate financial reporting. The result gives students a strong foundation for current study and their future professional lives.

Intermediate Financial Reporting SBPD Publications

Financial statements facilitate the communication between corporations and various stakeholders. The integrity, stability and transparency of such communication help preserving Hong Kong as a top global financial centre. To many laypersons, looking through financial statements can be like reading novels in a foreign language, with a sea of jargon obscuring the statements' true meaning. Financial Analysis in Hong Kong 2nd Edition is a product of experience, feedback and chapter review as well as an update of the changes in practices, guidelines, standards and legislations since its 1st edition in 2008. This 2nd edition provides a clear, concise reference for analysing corporations' financial statements. Based on the evaluations of published financials, this book is a convenient standalone guide for both novices and financial professionals in the boardroom and beyond.

Practical Problems in Financial Accounting
