How do you handle bookkeeping for a

convenience store or gas station? It's complex to track fuel, food, and merchandise sales. When you throw ATMs, lottery tickets, tobacco incentives, and a deli into the mix, it's even harder. And if your employees and local businesses run charge accounts, how do you track those? Learn how to use QuickBooks Desktop or Online to leverage your C-store's Point of Sale reports to track your income and expenses in your accounting software. You'll be ready for taxes, and have reports to analyze your profitability. Follow the instructions in this book to set up your Chart of Accounts, Items List,

Memorized Transactions, and Custom Reports, everything you need for day-to-day operations in a convenience store, gas station, and other specialty retail environments. Please note that this book is NOT a complete tutorial for using QuickBooks. The text assumes prior knowledge of bookkeeping principles and using QuickBooks software. It focuses on the industry-specific terminology and features you'll need to run your specialty retail gas station and convenience store (c-store). The instructions require QuickBooks Desktop 2017 or higher, or a subscription to QuickBooks Online Essentials/Plus (not included). To save yourself time, the book includes optional instructions to download a companion QuickBooks Template that you can purchase

separately from the publisher. The download file includes a QuickBooks Desktop file, already set up to match the instructions in the book. The file can also be imported into QuickBooks Online, with a few additional steps to create the Custom Reports. Check it out on our website: [https://learn.royalwise.com/visitor\\_catalog\\_digital\\_media/show/236/QB-for-Convenience-Stores-and-Gas-Stations](https://learn.royalwise.com/visitor_catalog_digital_media/show/236/QB-for-Convenience-Stores-and-Gas-Stations).

No jobs out there, no job prospects? Join the Army. Or the Navy. Or the Marines. Or the Air Force. Good pay, great benefits -- an excellent career opportunity. -- This book will teach you how to tweak the system to help you enjoy the fullest benefits the U.S. Military has to offer. -- What little competition there is for this title is several years old and virtually obsolete. Uncle Sam Wants You -- more than ever. Since the tragic events of 9/11, all branches of the U.S. Military have seen a rise in enlistments. This is due to several factors: 1) A renewed sense of patriotism, and 2) a cooling off the economy and subsequent recession. Suddenly, job opportunities for recent high school and college grads are drying up quickly. That's why a career in the Army, Navy, Air Force,

Marines, or even the Coast Guard, may be an excellent option. Author Bill Harris, working closely with recruiters from branch of the military, will detail the intricacies of getting the most out of a military career and discuss which branch of the military might be best for you. He'll explore age limits, guaranteed training, bonuses and benefits, and even the rigors of basic training. He'll also cover the many perks offered by a career in the military, and how best to obtain them.

"The first architect-designed gas station - a Pittsburgh Gulf station in 1913 - was also the first to offer free road maps; the familiar Shell name and logo date from 1907, when a British mother-of-pearl

importer expanded its line to include the newly discovered oil of the Dutch East Indies; the first enclosed gas stations were built only after the first enclosed cars made motoring a year-round activity - and operating a service station was no longer a "seasonal" job; the system of "octane" rating was introduced by Sun Oil as a marketing gimmick (74 for premium in 1931)." "As the number of "true" gas stations continues its steady decline - from 239,000 in 1969 to fewer than 100,000 today - the words and images of this book bear witness to an economic and cultural phenomenon that was perhaps more uniquely American than any other of this century."--Jacket.
