This book
assesses the
challenges
within the
Nigerian
educational

system and
provides a
concrete plan
to revitalize
the low-
performing
system by
strengthening

high-stakes testing at all levels. In Nigeria, many citizens believe that the solution to the country's low performance in education is to eliminate high-stakes standardized testing. High-stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students, teachers, and their school's performance. This book argues that the poor

quality of education and low ranking of Nigeria's educational system is not related to the negative consequences of high-stakes testing, but rather is due to many intrinsic factors. By conducting a comparative analysis of six high-performing education systems worldwide, the book offers a comparative summative evaluation of the educational system and offers recommendati

ons. This book will be of interest to policymakers and scholars in the fields of African education, higher education, quality and global studies, African studies, management and administration, leadership, and professional development studies. Journey Of A
Black Man
Introduction
The novel

Journey Of A
Black Man is a
book written
to tell the
story of the
origin of the
black man,
according to
the oral
narration by
our ancestors
(Ijebu) people
who are one
of the
prominent
tribes in
Nigeria. The
narration tells
us that
OLORUN-
ELEDUMARE
(God
Almighty)
created the
earth in the
location
which scientist
identified as
Atlantis that
eventually
sank and formed
the Atlantic

ocean, and
part of the
remnant of the
Atlantis which
we call life in
Nigeria. God
destroyed
Atlantis
because of the
continuous
disobedience
and
wickedness of
the
inhabitants.
Eventually,
God raised
human beings
through
Nuhabi (Noah)
after God had
flooded the earth
and Nuhabi's
descendants
from Joseph, the
Ham and
Shem, from
which our
ancestors
originate from
Ham and
Shem. They

settled in the lower part of the river Nile delta and are the ruler of Egypt as the Pharaoh. The Yoruba people become the prominent tribe after God separate the whole of Adamah's (Adam's) descendants and make them to scatter over the earth. However, the tribal wars, conflicts over lands and religions (Idols worshipping) made Egypt to become difficult to be governed, so the most recognized

Yoruba leader called Oduduwa who is a Priest-King decide to migrate back to Atlantis called Ife, which they had known to be the origin of creation. He moved with his son Oranyan to Ife and the Yoruba people dwell in the land in the Western Nigeria to other part of West Africa. Some of the Yoruba people remaining in Egypt rule over the place and when Abraham sojourn to Egypt, he was

given a Yoruba ruler's daughter Ewaduni as one of his concubines so as to allow peaceful co-existence between the Yoruba and his followers. Then the descendants of Ewaduni become the Jebu people that own Jebusite in present Middle East, they are strong warriors and when the Israelites return from Egypt back to the land of Cannan, the Benjamites and the descendants

of Joseph settled down among the Jebusite as cousin. But eventually, because of conflicts over land King David defeat the Jebusites and change the name of the city to Jerusalem. So the Jebus descendants left and settle down in Sudan and Egypt. However, a Pharaoh call Alare(Alara/Ar unah) who is a Jebu married a Sheba Kings daughter and their daughter became the ruler of Sheba whose name is Biliquis

Sungbo(the Queen of Sheba in the present Ethiopia). Eventually, the Queen of Sheba met with King Solomon and their son Magrigbaki made himself King by parading himself with the Royal crown and the Royal robe. This act was considered as a coup-de tact, but Queen of Sheba in order to save his son's life made him the King and followed the migration of Alare's son

Olu-Iwa out of the Southern Sudan to Atlantis city of Ife in Ife where the Yoruba ancestors originate and later to the present Ijebu-Ode in Nigeria. Then a Jebu Prince call Ogboronganda, whose mother was a granddaughter of Alare became the most prominent leader in Egypt as a Pharaoh Elect, he lead and defeat the notorious Alexander the Great, the King of

Macedonia. But because of continues fights and all the Princes want to become the Pharaoh, he migrate to Ijebu-Ode. White people and slave trade in southern Nigeria stories. interest in systematising traditional medicine, and to include material on significant instances of regulation or organisation. It was the first book to study the efforts of traditional healers and their newly formed professional associations and as such constitutes a pioneering collection of sources. Because of the changing position of traditional medicine it may well also be a unique record: before

long what is described here will largely have disappeared. *A Guide to School Certificate ENGLISH* iUniverse Distinguished with Distinctions is a book that reveals key secrets of distinction. Get to read live stories of people who were classified as failures and how they became distinguished in life. It also tells us about the mistakes made by those who allowed destructive

inhibitors to take over their lives and how they were cut down in their prime on the express way to distinction. This book reminds everyone that distinction is never ending therefore we must strive to get more every passing day.

The Wiley Handbook of Global Workplace Learning African Books Collective This paper generally lends support to the arguments advanced by Awonusi (1989, 1990, 2004) and others in favour of an endornormativ e as opposed

to an exonormative standard for English pronunciation in Nigeria. They include the fact that the existing, exonormative standard, British Received Pronunciation (RP), has undergone and is still undergoing changes in its homeland, and is not homogeneous. The heightened social mobility of today's world perhaps works against the demarcation and homogenizatio

n of language varieties, and this is all the more true of the varieties or lects that have been proposed for Nigerian English when these are related, more or less explicitly, to educational attainment. Major attention is given in the paper to a schema of basilect, mesolect, andacrolect presented by Ugorji (2010), with a focus on his account of vowels and his presentation of a

mechanism derived from optimality theory for evaluating vowels in contention. The basilect and the mesolect are found to be so close to each other that they might be combined. There would then be just two varieties. In contrast, the acrolect is close to British RP, albeit with many variants due to the conflict of two standardising forces, i.e. British RP and the basilect-mesolect. The vowel system of an officially

adopted endonormative standard – ‘Nigerian RP’ – would mainly be the same as that of British RP, but the optimality mechanism could be employed to give preference to some of the Nigerian variants for inclusion in it. *Essays on Societal Transformation* Graphic Communications Group Educationeering describes the author's areas of professional concern for

the past 55 years. Educationeering can be defined as directing the triple academic functions of Research, Teaching and Responsive Social Engagement towards the challenges of society. Prof. Obanya is an international Education Strategist and his original ideas are widely discussed throughout Africa. [Daily Graphic](#) iUniverse **Daily Graphic**
