German Studies.

Basic law for the Federal Republic of Germany

Good Press
A masterly introduction
to the United States
Constitution, this slim
book leads the reader
through a concise
overview of the
document's individual

articles and
amendments. With
clear and accessible
language, Currie then
examines each of the
three branches of the
federal government
and explains the
relation between the
federal and state
governments. He
analyzes those
constitutional
provisions that are
designed to protect
citizens from
governmental
interference, such as
the due process and
equal protection
clauses and the
confusing first
amendment provisions
respecting the
separation of church
and state, and includes
discussions of judicial
review and freedom of
speech and of the

press. A sympathetic yet critical guide, Currie's book enables students and laypersons to understand one of the cornerstones of the Western political tradition. The second edition, along with an updated chronology and bibliography, incorporates the Supreme Court decisions over the past decade that have affected constitutional interpretation. "Superb . . . highly recommended for those seeking a reliable, understandable, and useful introduction to our constitution."—Appellate Practice Journal and Update

How Our Laws are Made Nomos Verlagsgesellschaft
The Basic Law,

Germany's Constitution, has been frequently and substantially changed since coming into force in 1949. The fourth edition of this book consolidates the original text with all amendments up to and including the 60th Amendment of December 2014. There have been no further amendments yet. Therefore, the edition represents the current status in July 2016. The translation is part of 'International Constitutional Law' (ICL), an internet project on comparative constitutional law. The most recent update to this text can be found at www.jurisprudencia.de.

Basic Law for the Federal Republic of Germany Oxford University Press

This revised and fully up-to-date English translation of the 7th edition of the Casebook *Verfassungsrecht* includes a new outline of the German constitution, the BVerfG Court, and its jurisprudence. It condenses more than six decades of constitutional jurisprudence in order to familiarize readers with the style, technique, and language of the Court. As well as an analysis of the general principles of German constitutional law, the book covers the salient articles of the German Constitution and offers relevant extracts of the Court's most important decisions on the provisions of the Basic Law. It provides notes and discussions of landmark cases to

illustrate their legal and historical context and give the reader a clear understanding of the principles governing German constitutional law. The book covers the fundamental rights catalogue of the Basic Law and offers a comprehensive account of its intellectual moorings. It includes landmark jurisprudence on the equal treatment of same-sex couples, life imprisonment, the legal structure of property, the right to assembly, and the right to informational self-presentation. The book also covers the provisions and respective case law governing the state structure of Germany, for instance the recent decisions on the prohibition of the far-

right German nationalist party, and the Court's jurisprudence on European integration, including the most recent decisions on the OMT-program of the European Central Bank.

The Basic Law for the Federal Republic of Germany CreateSpace "Basic Law for the Federal Republic of Germany" by Parliamentary Council of the Federal Republic of Germany (translated by Justice and Finance Federal Ministers of the Interior). Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world

literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format. *The Bonn Constitution* University of Chicago Press NA.
