The Rev. Dr. Anna Pauline "Pauli" Murray (1910-1985) was a trailblazing social activist, writer, lawyer, civil rights organizer, and campaigner for gender rights. In the 1930s and 1940s, she was active in radical left-wing political groups and helped innovate nonviolent protest strategies against segregation that would become iconic in later decades, and in the 1960s, she cofounded the National Organization for Women (NOW). In addition, Murray became the first African American to receive a Yale law doctorate and the first black woman to be ordained an Episcopal priest. Yet, behind her great public successes, Murray battled many personal demons, including bouts of poor physical and mental health, conflicts over her gender and sexual identities, family traumas, and financial difficulties. In this intimate biography, Troy Saxby provides the most comprehensive account of

Murray's inner life to date, revealing her struggles in poignant detail and deepening our understanding and admiration of her numerous achievements in the face of pronounced racism, homophobia, transphobia, and political persecution. Saxby interweaves the personal and the political, showing how the two are always entwined, to tell the life story of one of twentieth-century America's most fascinating and inspirational figures.

Environmental Tracers in Subsurface Hydrology synthesizes the research of specialists into a comprehensive review of the application of environmental tracers to the study of soil water and groundwater flow. The book includes chapters which cover ionic tracers, noble gases, chlorofluorocarbons, tritium, chlorine-36, oxygen-18, deuterium, and isotopes of carbon, strontium, sulphur and nitrogen. Applications of the tracers include the estimation of vertical and horizontal groundwater velocities, groundwater recharge rates, inter-aquifer leakage and mixing processes, chemical processes and palaeohydrology. Practicing hydrologists, soil physicists and hydrology professors and students will find the book to be a valuable support in their work.

First published in 1956, *Proud Shoes* is the remarkable true story of slavery, survival, and miscegenation in the South from the pre-Civil War era through the Reconstruction. Written by Pauli Murray the legendary civil rights activist and one of the founders of NOW, *Proud Shoes* chronicles the lives of Murray's maternal grandparents. From the birth of her grandmother, Cornelia Smith, daughter of a slave whose beauty incited the master's sons to near murder to the story of her grandfather Robert Fitzgerald, whose free black father married a white woman in 1840, *Proud Shoes* offers a revealing glimpse of our nation's history.

Providing an excellent example of why folk artists can be appreciated as carriers of knowledge, even if they are unaware of it, this book could change the ways we understand and appreciate American folk arts. Connecting a sharecropper from Georgia in the Southern United States to a protector and healer in Touba, Senegal, West Africa, the holy city of Mouridism, and the final resting place of its founder, Shaikh Ahmadou Bamba Mbàcke, it makes an interesting link while examining the cultural aspects of two very different and yet similar paths of life. Historians and art historians alike will find this investigation of African American art and folk culture both interesting and insightful. Not only does this book trace the characteristics of art through the African Diaspora, but it also traces Islam through those same diasporic transportations of colonial exploration and slavery.

THE SUNDAY TIMES BESTSELLER Updated with a new afterword "An excellent take on the lunacy affecting much of the world today. Douglas is one of the bright lights that could lead us out of the darkness." - Joe Rogan "Douglas Murray fights the good fight for freedom of speech ... A truthful look at

today's most divisive issues" - Jordan B. Peterson Are we living through the great derangement of our times? In *The Madness of Crowds* Douglas Murray investigates the dangers of 'woke' culture and the rise of identity politics. In lively, razor-sharp prose he examines the most controversial issues of our moment: sexuality, gender, technology and race, with interludes on the Marxist foundations of 'wokeness', the impact of tech and how, in an increasingly online culture, we must relearn the ability to forgive. One of the few writers who dares to counter the prevailing view and question the dramatic changes in our society - from gender reassignment for children to the impact of transgender rights on women - Murray's penetrating book, now published with a new afterword taking account of the book's reception and responding to the worldwide Black Lives Matter protests, clears a path of sanity through the fog of our modern predicament.

Atlas of Alberta Lakes Beacon Press

A stunning, full-colour collection of the brilliant paintings that revolutionized Canadian art. In the early twentieth century a group of young artists strived to create, in Lawren Harris's words, paintings that would "embody the moods and character and spirit of the country." The fifty-four breathtaking colour plates in this book confirm their success. Well-loved landscapes, like Tom Thomson's *Jack Pine*, appear beside some unexpected treasures like Edwin Holgate's *Nude in a Landscape*. The essays by Joan Murray and Harris give historical context to the Group of Seven, and fascinating captions provide biographical notes and insightful critiques of each member's style. No Canadian library is complete without this beautiful volume.
