 NEWSFLASH . . .
 VLOGGING IS GO! It's bad
 enough having to move
 house, school and country
 all at the same time,
 without making a fool of
 yourself on the first day of
 term. But that's just what
 Lucy's done - and one of
 her classmates has
 videoed the whole thing
 and put it online! Lucy's
 so stressed, her
 stammer's become worse
 than ever. So when a
 friend encourages her to
 create her own videos,
 she thinks it's a terrible
 idea - surely she's

embarrassed herself
 enough for one lifetime!
 But when Lucy finally
 gives vlogging a try, she's
 amazed to find that
 people actually want to
 watch . . . Includes tips for
 making your own vlogs!

 Do you want to build your
 wealth and secure your
 financial future? Do you
 want to ensure that
 inflation does not eat
 away at everything that
 you have worked so hard
 for? Do you want to own
 wealth outside of the
 paper financial system? If

your answer to these three questions is yes, then you need to own real money. Not rands, dollars or euros: these are merely fiat currencies. You want to own gold and silver, as without them, your wealth is only worth the value of the ink and the paper on which it is printed. For thousands of years, holders of gold and silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt, fiscal imprudence and ad infinitum money-printing. The proprietor of

even a few ounces of gold is not only an investor but an individual with the assurance that their wealth and purchasing power remains preserved. *Going for Gold* is not an attempt to coerce investors into allocating a portion of their total investment portfolio to precious metals. Rather, it speaks directly to the South African investor and declutters and contextualises the vast amounts of information available about precious metals, providing counsel that the mainstream

financial industry has disregarded at best, and suppressed at worst.

Twelve-year-old Brittany Lee Morgan is the best. Or, at least she was at her

gymnastics training gym in Ohio. But when her family moves to Texas for a world-class facility, Britt is suddenly a zero in the eyes of her new teammates. The other girls—graceful Christina, perfect Noelle, and quiet Jessie—aren't exactly excited by the arrival of the pint-sized powerhouse. Especially since Britt has a way of saying the wrong thing at all the wrong times. But, Britt's not scared of a challenge: she's an Elite Gymnast, and she didn't get there without taking

some major risks. She's determined to become friends with the other Texas Twisters, whether they want her to or not. *Go for the Gold* HarperCollins Leadership "Going for the Gold" is a practical guide for living with eternal values in view. It is a study of the many Scripture Passages that describe the Judgment Seat (Bema) of Christ, the heavenly event when Jesus will evaluate the lives of His people. Whether you are a young person facing hard choices, an adult in the

midst of your career, or a retired person with time on your hands you want your life to count. This illuminating volume will show what the Bible says about the time of the judgment of believers' works, but more importantly, it will help you live a life that is worthy of the words, "Well done."

Welcome to the International Tournament of Athletes, the most prestigious athletic competition in the world. Brazil, known for their gambling, prostitution, and that infamous heat, is this year's host, but the Brazilian heat isn't what is on everyone's mind. Every athlete there is consumed by the ultimate prize - winning gold. After the first week of the ITAs, volleyball player Alina Smith has everything going for her. Her

handsome boyfriend just won a gold in swimming, and all she has to do is beat Brazil to knock them - and her arch nemesis Gabriela Santos - out of the tournament. But in the middle of the game, her world is turned upside down when Alina finds pictures of her boyfriend with Gabriela at a club. When it seems like everything is spiraling out of control, she runs right into Bryce. Bryce Walker is not your average jock. Growing up in foster care has made him tough, but taking care of his little

sister has made him sweet and kind. On top of that dangerous combination, he also has the perfect athlete's body. When he's kidnapped by a local crime lord trying to rig the games, he's torn between saving his sisters life and protecting the girl he's falling for. He's no longer just competing for gold. He's competing for his life. It's about to get even hotter in Brazil. This book is intended for mature audiences. *Going for Gold* University of Alabama Press
Details how Newmont

Mining revolutionized the gold mining industry and remains the second largest gold miner in the world Jack H. Morris asserts that Newmont is the link between early gold mining and today's technology-driven industry. We learn how the company's founder and several early leaders grew up in gold camps and how, in 1917, the company helped finance South Africa's largest gold company and later owned famous gold mines in California and Colorado. In the 1960s the company

developed the process to capture "invisible gold" from small distributions of the metal in large quantities of rock, thereby opening up the rich gold field at Carlin, Nevada. Modern gold mining has all the excitement and historic significance of the metal's colorful past. Instead of panning for ready nuggets, today's corporate miners must face heavy odds by extracting value from ores containing as little as one-hundredth of an ounce per ton. In often-remote locations, where the

capital cost of a new mine can top \$2 billion, 250-ton trucks crawl from half mile deep pits and ascend, beetle-like, loaded with ore for extraction of the minute quantities of gold locked inside. Morris had unique access to company records and the cooperation of more than 80 executives and employees of the firm, but the company exercised no control over content. The author tells a story of discovery and scientific breakthrough; strong-willed, flamboyant leaders

like founder Boyce Thompson; corporate raiders such as T. Boone Pickens and Jimmy Goldsmith; shakedowns by the Indonesian

government and monumental battles with the French over the richest mine in Peru; and learning to operate in the present environmental

regulatory climate. This is a fascinating story of the metal that has ignited passions for centuries and now sells for over \$1,000 an ounce.
