Semiotics, Marketing and Communication Orchard Books (NY)

A discussion of how modern advertising attempts to control our thoughts and desires in order to make us buy the products it produces. Exploring the use of consumer motivational research and other psychological techniques, including subliminal tactics, this book shows how advertisers secretly manipulate mass desire for consumer goods and products. In addition, Packard also discusses advertising in politics, predicting the way image and personality rapidly came to overshadow real issues in the televised age.

The Origin of Species Other Press, LLC

Winner of the 2008 Governor General's Award for Fiction Montreal during the turbulent mid-1980s: Chernobyl has set Geiger counters thrumming across the globe, HIV/AIDS is cutting a deadly swath through the gay population worldwide, and locally, tempers are flaring over the recent codification of French as the official language of Quebec. Hiding out in a seedy apartment near campus, Alex Fratarcangeli ("Don't worry. . . . I can't even pronounce it myself"), an awkward, thirty-something grad student, is plagued by the sensation that his entire life is a fraud. Scarred by a distant father and a dangerous relationship with his ex Liz, and consumed by a floundering dissertation linking Darwin's theory of evolution with the history of human narrative, Alex has come to view love and other human emotions as "evolutionary surplus, haphazard neural responses that nature had latched onto for its own insidious purposes." When Alex receives a letter from Ingrid, the beautiful woman he knew years ago in Sweden, notifying him of the existence of his five-year-old son, he is gripped by a paralytic terror. Whenever Alex's thoughts grow darkest, he recalls Desmond, the British professor with dubious credentials whom he met years ago in the Galapagos. Treacherous and despicable, wearing his ignominy like his rumpled jacket, Desmond nonetheless caught Alex in his thrall and led him to some life-altering truths during their weeks exploring Darwin's islands together. It is only now that Alex can begin to comprehend these unlikely life lessons, and see a glimmer of hope shining through what he had thought was meaninglessness.

The animals of the forest have assembled to discuss what is the most important thing: to have a trunk like an elephant, quills like a porcupine, or a long neck like a giraffe? Naturally, every animal is convinced that its particular trait is the most important one and that everyone should have it. But when the double pages open to show all the animals with the quills of a porcupine, the long neck of a giraffe, or the trunk of the elephant, everyone must agree that the true importance lies precisely in their collective 'diversity'. It is that which makes them all unique and essential to life of the forest. The Most Important Thing received a UNESCO honorable mention for peace and collaboration. An important message of diversity and inclusion delivered in the form of a charming modern fable.

A huddle of wooden sheds in a courtyard off the Boulevard Montmartre known as Cormon's atelier was where the handsome art student from Sydney, John Peter Russell, first met the haunted, intense newcomer from Holland, Vincent van Gogh. Both were foreigners in the competitive art world of Paris in the 1880s, and over the next two years both would discover a passion for colour painting. Now, for the first time, Ann Galbally traces the passage of this extraordinary and unlikely friendship. The two spent hours together in a Paris studio experimenting with the fast-moving changes in art practice. Both artists ultimately rejected the Impressionist's world of urban sophistication and left Paris to develop colour painting in isolation, Van Gogh at Arles in Provence, and Russell on Belle Ile off the coast of Brittany. With a supporting cast including Gauguin, Rodin, Monet and Matisse this is a journey through the struggles and failures, plots and intrigues of artistic life. A tale of love found and lost and ultimate tragedy, it makes for enthralling reading.

The original novelization of King Kong, featuring a new introduction by Jack Thorne, the Tony-winning playwright of *King Kong: Alive on Broadway*, and cover art by the celebrated Olly Moss The giant primeval gorilla King Kong is one of the most recognized images in our culture. So great is the mighty Kong's hold on the popular imagination that his story has inspired an entire cinematic universe. Now the legendary monster comes to the stage in the brand-new musical *King Kong: Alive on Broadway*. Beneath King Kong's cultural significance, however, is a tense and surprisingly tender story. One cannot help but be frightened by Kong's uncontrollable fury, be saddened over the giant's capture, mistreatment, and exploitation by venal showmen, or sympathize with the beast's ill-fated affection for the down-on-her-luck starlet Ann Darrow. With a foreword by Mark Cotta Vaz, the preeminent biographer of Merian C. Cooper, producer of the original 1933 classic film.
