The sweet potato is at  
present grown in more  
than 100 of the  
independent countries  
of the world. Most of

the producer nations  
are situated in the  
tropical developing  
world where a high  
proportion of the  
poorest people live.  
Increasing recognition  
of the potential which  
sweet potato holds for  
combating food  
shortages and  
malnutrition has  
resulted in intensified  
research efforts to

enhance production and consumption. This book reviews our knowledge about the varied aspects of the sweet potato as a human food and animal feedstuff. This volume will be found practical and informative by all those involved in food and nutrition sciences, especially but not exclusively in developing countries. These include research workers in food or agriculture, dieticians, nutritionists, food technologists, students, planners and policy makers.

Penguin Books

The Hamito-Semitic

Etymological

Dictionary, a project in the making since 1986, is the first dictionary to reflect the vocabulary of the extinct Proto-

Hamito-Semitic (Proto-Afro-Asiatic) language. Reconstructed on the basis of Semitic, Ancient Egyptian, Berber, Chadic and Cushitic linguistic groups, the Dictionary plays an indispensable role in further research into the field of historical linguistics. It surpasses by far the only comparable work to date, M. Cohen's *Essai comparatif sur le vocabulaire et la phonétique du chamito-semitique*, published in 1947, which contains much less material and is now outdated. The Dictionary comprises more than 2,500 lexical items and includes an introduction providing valuable information on the historical phonology of Hamito-Semitic as well as an

index of meanings, which supplies linguistics, archaeologists and scholars of ancient history with added insight into the culture of the ancient speakers of Proto-Hamito-Semitic. An invaluable contribution to the field of Afro-Asiatic Studies, *The Hamito-Semitic Etymological Dictionary* will be used and discussed by scholars for years to come.

Concepts in Plant Metabolomics Harper Collins

What is it like to be known as Mansoor Ali Khan Pataudi's daughter? Or to have a mother as famous as Sharmila Tagore? Or to be recognized as Saif Ali Khan's sister? Or as Kareena Kapoor's sister-in-law? And where do I stand

among them? Actor Soha Ali Khan's debut book is at heart a brilliant collection of personal essays where she recounts with self-deprecating humour what it was like growing up in one of the most illustrious families of the country. With never before published photos from her family's archives, *The Perils of Being Moderately Famous* takes us through some of the most poignant moments of Soha's life—from growing up as a modern-day princess and her days at Balliol College to life as a celebrity in the times of social media culture and finding love in the most unlikely of places—all with refreshing candour and wit.

The world ocean is a life-supporting system for humanity, yet it remains largely unknown. Based on data collected from around the world, the Global Ocean Science Report 2020 offers a global record of how, where and by whom ocean science is conducted. It monitors our capacity to understand the ocean and seize new opportunities. More generally, the Report underlines the essential role of ocean research and international cooperation for all key issues of the 21st century.

### **Crop Improvement Under Adverse Conditions**

Penguin Indian social media is awash with right-wing trolls who incite online

communal tension and abuse anyone who questions them. But who are they? How are they organized? In this explosive investigation, conducted over two years, Swati Chaturvedi finally lifts the veil over this murky subject *A History of Egypt Under the Pharaohs* Harper Collins The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking

cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.

Since the concept of allelopathy was introduced almost 100 years ago, research has led to an understanding that plants are involved in complex communicative

interactions. They use a battery of different signals that convey plant-relevant information within plant individuals as well as between plants of the same species or different species. The 13 chapters of this volume discuss all these topics from an ecological perspective. Communication between plants allows them to share physiological and ecological information relevant for their survival and fitness. It is obvious that in these very early days of ecological plant communication research we are illuminating only the 'tip of iceberg' of the communicative nature of higher plants. Nevertheless, knowledge on the identity and

informative value of volatiles used by plants for communication is increasing with breathtaking speed. Among the most spectacular examples are situations where plant emitters warn neighbours about a danger, increasing their innate immunity, or when herbivore-attacked plants attract the enemies of the herbivores ('cry for help' and 'plant bodyguards' concepts). It is becoming obvious that plants use not only volatile signals but also diverse water soluble molecules, in the case of plant roots, to safeguard their evolutionary success and accomplish self/non-self kin recognition. Importantly, as with all the examples of biocommunication, irrespective of whether signals and signs are

transmitted via physical or chemical pathways, plant communication is a rule-governed and sign-mediated process.

*Plant Communication from an Ecological Perspective*

HarperCollins

These are poems on the post-colonial aftermath. *Struggle for Intimacy* deals with the chaos of the divided self, ethnocentrism, xenophobia, feminism, love, and the struggle to find one's being.

Kavya Sharma has completed her Masters in Creative Writing from the University of Nottingham and has authored three books, namely *All Seasons Alike*, *To Naddiyaa*, and a poetry collection, *The Carmine Memories*. She is the Founder & Editor-in-Chief of *Verse of Silence* literary

magazine. Her works have been featured in many online and print venues, including *The Sunday Guardian*, *Asian News*, *Kitaab*, *The Bangalore Review*, *BBC Nottingham*, and elsewhere.

Jo B. Paoletti's journey through the history of children's clothing began when she posed the question, "When did we start dressing girls in pink and boys in blue?" To uncover the answer, she looks at advertising, catalogs, dolls, baby books, mommy blogs and discussion forums, and other popular media to examine the surprising shifts in attitudes toward color as a mark of gender in American children's clothing. She chronicles the decline

of the white dress for both boys and girls, the introduction of rompers in the early 20th century, the gendering of pink and blue, the resurgence of unisex fashions, and the origins of today's highly gender-specific baby and toddler clothing.

Abbey and Money Singh are better known as The Modern Singhs, Kiwi social media celebrities with a rich and tangled love story to tell. Shared through the eyes of this inspiring duo, *The Modern Singhs* reveals their experiences as migrants to New Zealand as they struggled to find footing in new surroundings. They describe how they met and pursued a relationship that was

forbidden by Money's culture, where he felt he had to choose between his family and the love of his life. The couple opens up about the difficult birth of their son, their journeys with mental health, a complicated sense of home, and what it's like to raise bilingual children across three cultures. The rest is history - or at least uploaded to YouTube, where Abbey and Money's joyful outlook and celebration of tradition unites 1.3 million viewers from all over the world, encouraging others to embrace difference with open hearts.

*Breakfast Recipes*  
Springer Science & Business Media  
Derek O'Brien dominated Indian television as the country's most well-

known quizmaster for over two decades, asking questions to millions across India. Now he plays a key role in the Rajya Sabha raising important questions from the front row in the Upper House. One of the most candid, courageous voices of the Opposition, O'Brien is articulate, incisive and provocative - qualities that are apparent in his writing. In this book, comprising his best political essays, Derek O'Brien reflects on the state of the nation, offering insights from a unique vantage point - inside Parliament. Never afraid of controversy or contention, he covers topics ranging from federalism, the Constitution and the note ban to the much-debated GST bill, social

media and the lessons he's learnt as MP. Thought-provoking and captivating at once, Inside Parliament is required reading for all interested in understanding today's India and all who care about its future.

**Dr. Babasaheb Ambedkar, Writings and Speeches**

Indiana University Press  
This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The

chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a

host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks. **Peaceful Parent, Happy Kids** Oxford University Press Renowned cardiac researcher and bestselling author Dean Ornish, M.D., has inspired millions of people to choose a healthier lifestyle and a low-fat diet. But low-fat cooking can be time-consuming and hard to fit into a busy schedule, so Dr. Ornish has found 150 wonderful ways to

make it fast, delicious and fun. Everyday Cooking with Dean Ornish includes 150 easy and extraordinary recipes that are extremely low in fat and cholesterol -- and high in flavor. You'll find slimmed-down versions of comfort foods that are delicious and nutritious, from French Toast and Hashed Browns to enchiladas and lasagna, from Creamy Corn Soup and Spicy Arkansas Chili to Southwest Pizza and Carrot Cake with Cream Cheese Frosting. The recipes are quick to prepare, the ingredients are familiar and inexpensive and there are hundreds of smart time-saving tips on cooking, shopping and serving. Now you no longer have to choose

between good food and good health.

[One Indian Girl](#)  
Springer Science & Business Media  
Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a

harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807- c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement.

'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Ever wondered why your grandmother threw a teabag into the pressure cooker while boiling chickpeas, or why she measured using the knuckle of her index finger? Why does a counter-intuitive pinch of salt make your kheer more intensely flavourful? What is the Maillard reaction and what does it have to do with

fenugreek? What does your high-school chemistry knowledge, or what you remember of it, have to do with perfectly browning your onions? Masala Lab by Krish Ashok is a science nerd's exploration of Indian cooking with the ultimate aim of making the reader a better cook and turning the kitchen into a joyful, creative playground for culinary experimentation. Just like memorizing an equation might have helped you pass an exam but not become a chemist, following a recipe without knowing its rationale can be a sub-optimal way of learning how to cook. Exhaustively tested and researched, and with a curious and engaging approach to food, Krish Ashok puts

together the one book the Indian kitchen definitely needs, proving along the way that your grandmother was right all along.

**A Handbook of the Fighting Races of India** Hawakal

Publishers  
Plant development and productivity are negatively regulated by various environmental stresses. Abiotic stress factors such as heat, cold, drought, and salinity represent key elements limiting agricultural productivity worldwide. Thus, developing crop plants with the ability to tolerate abiotic stresses is a critical need which demands modern novel strategies for the thorough understanding of plant response to abiotic

stresses. Crop Improvement under Adverse Conditions will serve as a cutting-edge resource for researchers and students alike who are studying plant abiotic stress tolerance and crop improvement. The book presents the latest trends and developments in the field, including the impact of extreme events on salt tolerant forest species of Andaman & Nicobar Islands, the overlapping horizons of salicylic acid in different stresses, and fast and reliable approaches to crop improvement through In Vitro haploid production. Written by renowned experts and featuring useful illustrations and photographs, Crop Improvement under

Adverse Conditions is a concise and practical update on plant abiotic stress tolerance and crop improvement.

*Sweet Potato* Sanjay & Co

This full-color reference offers practical, evidence-based guidance on using more than 120 medicinal plants, including how to formulate herbal remedies to treat common disease conditions. A body-systems based review explores herbal medicine in context, offering information on toxicology, drug interactions, quality control, and other key topics. More than 120 herbal monographs provide quick access to information on the historical use of the herb in humans and animals, supporting

studies, and dosing information. Includes special dosing, pharmacokinetics, and regulatory considerations when using herbs for horses and farm animals. Expanded pharmacology and toxicology chapters provide thorough information on the chemical basis of herbal medicine. Explores the evolutionary relationship between plants and mammals, which is the basis for understanding the unique physiologic effects of herbs. Includes a body systems review of herbal remedies for common disease conditions in both large and small animals. Discusses special considerations for the scientific research of

herbs, including complex and individualized interventions that may require special design and nontraditional outcome goals.

 Train was moving. In the moonless night. She felt something suddenly. It was dark inside the train so it was not visible. A hand touched her... It wasn't her kid's. Bigger. An adult's. She pushed it back in shock with a light scream.....His hands had reached deeper. It was damn dark. Nobody could see anything. But here was she, lying with her son while a man was massaging her passionately. She again tried a failed attempt to stop him. He didn't move. His

hands had done with throat and neck. His oily hand had now slid inside her... She again tried to explain him. Took his face in her hands and pleaded. To stop. He knew it was half-hearted. Kept moving his hand inside. Compassion had turned into passion. Sympathy had turned into ardour. Caring had turned into craving. The lines cleaving gentle friendly touch and passionate rub were blurred...  
 ...She looked back at her little son while slowly getting into man's blanket. He was sleeping peacefully...  
 The bondages of modesty were shattered... It was the first sensual kiss for her in years. She pulled his head near her heart. It was the sign of surrender. Forgetting

all ties, relations and even her son sleeping next to her on the other berth. It was the night of liberation! The night of celebration! The night of miracle...  
 The man was master of seduction. A trained lover. He did that 18 times. With different women. Hotties called him man of dreams. But he was a man on mission. Will love defeat mission? Read this romantic thriller to find out!

*Global Report on Trafficking in Persons 2020* Penguin Random House India Private Limited

Though Pakistan has made progress toward achieving its education, gender equity, and health Millennium Goals, it is unlikely to reach 2015 targets. In general, achievements were

lower in rural areas and in lower-income households. Pakistani girls still have lower enrollment in primary and secondary schools, and do not perform as well as boys on tests. Adult female literacy varies widely by province. Women continue to face many

forms of gender-based violence, and often are restricted from leaving their homes. While employment rates among women have doubled in the last decade, women are more likely to be unemployed than men, and lack access to finance or assets.
