How can an investor generate passive income with Bitcoin and other cryptocurrencies? If you have ever struggled in the financial markets before, you were probably striving to find a solution. Essentially, passive income is generated by doing some initial setup work. If done correctly, the setup work will pay off later on, with minimal maintenance. Studying the intrinsic value of a digital coin, and then analyzing the charts from a technical standpoint can be seen as the initial setup work that can set the passive income stream in motion. Once the trade is placed, the investor can then allow the money to come in. This book will focus on the technical analysis information that is most important, as well as how to apply it to become more profitable in the financial markets. It will cover: - How to know if the price is likely to ascend or descend- How to use a chart to see if a trend is likely to reverse- How to identify buy and sell signals on a chart- How to determine how far a price may ascend or decline- How to use candlesticks to avoid losses- How to Buy and Sell Bitcoin- and more

We're gearing up to profit from the upcoming stock market crash. Are you? Dear investor, What I'm about to tell you SUCKS. But not listening to this message will affect your financial future. In fact, ignoring this advice could cost you thousands, tens of thousands or even hundreds of thousands of dollars - depending on the size of your portfolio. You see, within the next 36 months there will be a stock market crash. All indicators show this is now a matter of when, rather than if. Wages are stagnating across the country. And the housing supply is beginning to outpace demand for the first time since 2008. These aren't just my opinions. They are shared by many Wall Street

experts, including billionaire investors like Jim Rogers and Doug Casey. What's more alarming is... The numbers indicate this crash will be worse than 2008. Which wiped out over \$7 trillion dollars of investor money. So leaving your portfolio exposed... Will cause you to lose money faster than if you threw it off the edge of a cliff! However, it's not all doom and gloom. A few select investors, considered the smartest in the world...will not just survive the crash... They will thrive in the crash. For years their secrets have been closely guarded... But now you can benefit from the exact same strategies they use to protect...and even grow their wealth in a market downturn. The same strategies you can use to bulletproof your retirement. Strategies including: The "3 Rs" stocks which perform best in a bad market - Page 33 How to use cryptocurrency to hedge against your traditional portfolio - Page 59 The absolute worst type of stock to have in your portfolio, and one that always plummets during a downturn - Page 46 How regular folks can legally benefit from holding assets offshore - Page 41 The easiest way for the average investor to short the market (so simple, yet relatively unknown) - Page 31 The "pennies on the dollar method" to buy blue chip stocks at a huge discount (used by elite investors all the time) - Page 26 The asset which has become a favorite of billionaire crisis investors, and how you can invest using your regular brokerage account - Page 55 You'll also discover: 3 vital indicators which show us a market crash is imminent - Page 14 Stocks that need a growing market to prosper, and why you need to rebalance your portfolio if you hold a lot of them - Page 48 The 10 items you need to have a "go-bag". And why not being prepared may cost you dearly - Page 75and much, much more. Plus you'll receive 2 free bonuses! Can you afford to suffer through another financial crisis? Can you afford to set your retirement back by 5 or even 10 years? If the answer is no, then click "add to cart" to see how you can thrive during the next market crash!

This book consists of two titles, which are the following: Book 1: Bitcoin has been dead, then a hype, and now it seems.... stable? Maybe. You might be wondering if investing in bitcoin is a good idea, and although nobody has all the answers (including me), it does help to understand what you invest in. Guides like these can help you find answers as to where the future lies of this digital cryptocurrency, and if other coins are worth investing into as well. Let me take you by the hand and lead you along the path to enlightenment and comprehension! Where does bitcoin come from? How do you acquire your first bitcoins? What are pros and cons? And what are the predictions for the future? These and many other questions will be clarified in this book. Book 2: Bitcoin can be confusing. Some people lose money while others become rich with it. And typically, if you make something, it means someone else lost something, and vice versa. So, how do you become a winner in this game? Do you buy and hold? Start day trading? Well, although there are many variables that go into this, it will definitely help to understand what cryptocurrency is all about. The background of the hype will be a basis that you can use to make more accurate, clever investment decisions, how to avoid scams, use better strategies, and foresee the future.

In the next decade Bitcoin will have passed through adolescence and reached adulthood. This book tells the fascinating journey of Bitcoin and why it could be the best investment opportunity of your life. You'll learn about Bitcoin's role in the history of money and why it's considered "good money" by many financial advisors, including the author, who has spent a decade and a half in the investment business. Bitcoin's value has grown exponentially over multiple boom and bust cycles spanning more than a decade. If Bitcoin reaches its potential, its value could rise by ten or even 100 times its current price. Bitcoin, like Alibaba, Amazon, Apple, Facebook, Google, Netflix, Microsoft, and Tencent, relies on the network effect (how many others are using it). But the market for money is much greater than the combined market values of the Internet giants. This book will help you understand why Bitcoin is the world's solution for the problem of money, the role of money in our economy, the current state of debt, and the particular intricacies of Bitcoin.

If you were born before 1990, this may be the most valuable financial message you ever read... Something incredible is happening right now... An entirely new asset class is being created... One that is making more people rich than any other financial market. For example... If you had invested just \$100 in Bitcoin on January 1st 2017, you'd have \$1004 today - not bad right? What about if

you'd also put \$100 into Ethereum on the same day? Well you'd have over \$8,500. Let's do one more. \$100 in Ripple on January 1st 2017 would be worth a staggering \$14,300 today. That's over a \$20,000 return from a \$300 investment. Or over \$200,000 if you'd put in \$3,000. A life changing amount of money. You won't find these kinds of returns in the stock market. Or any other financial market. And this is just the beginning. Now we're seeing real world adoption from leading financiers to governments to investment banks. And what you may not know is, private investments in blockchain companies have increased by 800% in the past 12 months.

Cryptocurrency is moving beyond a speculation, and into a fully fledged asset class.
